THIS WEEK'S MEMORY VERSE

God demonstrates his own love for us in this: While we were still sinners, Christ died for us.

Romans 5: 8

POINT TO PONDER

'There are many real things outside the scope of verification by the scientific method. The scientific method is useful only with measurable things. No one has ever seen three feet of love or two pounds of justice, but one would be foolish indeed to deny their reality. To insist that God be proved by the scientific method is like insisting that a telephone be used to measure radioactivity.'

Paul Little
